PROFILE

As a person, I am sociable, driven, curious and likes to get things done. For example, I was the Head of the business's Committee (head of corporate relations) at the Computer-science guild at LTH where I was a part of the board of Directors.

EXPERIENCE

TECHNICAL TALENT, TETRA PAK, LUND JUNE 2016 - PRESENT

The Technical Talent program is an extensive trainee program for ambitious engineering students with a genuine interest for technology and technical solutions. Being put in the midst of an engineering workplace parallel to my studies I have received invaluable insight and experience that I immediately can apply to my education. I have been working mainly with User experience and building web based systems.

B2B CONSULTANT, ADSENSUS, LUND NOVEMBER 2015 - JUNE 2016

Provides operative support that includes market planning & analysis, assessment of potential customers, lead generation and finalization of qualified sales meetings.

HEAD OF CORPORATE RELATIONS, COMPUTER SCIENCE-GUILD, LUND JUNE 2015 - JUNE 2016

I am a part of the board of Directors at the Computer science-guild where I hold the position as head of corporate relations. This means that I am responsible for all contact with companies that wants to have a collaboration with the Computer science-guild. The committee I am head of consists of sixteen people who are working together to help companies market themselves towards computer engineering students, this is usually done by organizing events with the companies.

PROJECT MANAGER, TEKNIKFOKUS, LUND MAY 2014 - APRIL 2015

Was responsible for Computer science-guild fair called "Teknikfokus". I worked with a project group that consisted of six people. As project manager I did everything from selling fair to the companies to organising and ensuring that both the students and the companies were satisfied with "Teknikfokus". Our work resulted in the most successful "Teknikfokus" fair so far both economically and in the number of students visiting the fair.

LABORATIONS LEADER, LUNDS UNIVERSITET OKTOBER 2014-DECEMBER 2014

I worked as a Laboratory leader with the undergraduate course in Java programming at Lunds University. My work consisted of helping students with problems they had in their programs and also helping them understand the code in the labs. I also examined the students work after each lab, and graded the work they had done.

INTERIOR CONSTRUCTIONS, MY WINDOW, STOCKHOLM AUGUST 2010-JULY 2015

At "My Window" I worked both alone as well as with groups in major projects. I was responsible for the construction of certain projects. When I was responsible for the constructions I had to divide the tasks so that the work would be effective and deadline was managed. I worked at "My Window" during summers and part time during my studies.

WAITER, ST-LUCYS, BRISBANE, AUSTRALIEN DECEMBER 2012

Worked as a waiter at lunches, dinners and larger events at St-Lucys.

SWIMMING INSTRUCTOR, MÖRBYBADET, STOCKHOLM JANUARY 2009- DECEMBER 2010
Worked as a swimming instructor with kids in the ages 8 to 14 years old.
